TOMKAT	8 1/2"	50, 60, 70	27" - 31"	31 3/4"	3.8 lbs	307 - 315 fps	77.13 fpe	299 - 307 fps	\$599

* Special order 90# - 100# draw weights are available on the Tribute only. Draw weights of 90 lb and 100 lb are not covered by the BowTech Warranty.

Performance testing is completed using a Custom Chrono, Heavy Duty ProShop Meter and digital scales (digital scales have a variance of +/- 1%). Speed ratings have been obtained with factory installed brass nock and Hush Kit. The use of these accessories decreases velocity by 5-8 fps. † Mass bow weights are taken with these accessories installed.

IBO speed ratings are the industry standard and are calculated using an arrow weighing 5 grains per pound (350 gr) at 70# draw weight with a 30" draw. Speeds for the Equalizer are achieved using a 300-grain arrow at 60# with a 27 1/2" draw.

All models feature an adjustable let-off range of 65% to 80% and draw length modules available in 1/2" increments.

Only the Tribute, Allegiance, and the TomKat have the option of either the speed or ultra-smooth module.

Target options available in hydrographic transfer Black Marble, Clear Polished Chrome, and Smoke Polished Chrome. Target Colors: add \$50 for Black Marble— add \$125 for Clear or Smoke Polished Chrome.

All bows feature Mossy Oak® Obsession™ camo. Add \$50 for Special order camo finishes in Mossy Oak® Brush™, Realtree Hardwoods® HD™, and RealTree Hardwoods Green® HD™.
