

FOR IMMEDIATE RELEASE

EXCALIBUR'S FLAGSHIP MICRO SUPPRESSOR REDEFINES CROSSBOW PERFECTION

Kitchener, Ontario, Canada - Excalibur's Micro Suppressor, the brand's 2017 flagship crossbow, is a revolution in size and sound. The crossbow is deadly quiet, the most compact Micro crossbow ever designed by the company, and still capable of firing bolts at speeds up to 355 fps.

"The Micro crossbow series has been incredibly popular with our customers for several years, and we know the Micro Suppressor is the best one yet," said Michael Martin, marketing specialist for Excalibur Crossbow. "This crossbow has everything you want in a recurve: compact size, lightweight, high-performance and deadly quiet."

Built on the Micro 355 platform, the Micro Suppressor features the all-new Sound Deadening System, four components working in sync to dramatically reduce vibration and noise when the crossbow is fired. An over-moulded, rubberized stirrup, Ex-Shox, String Stars and R.A.V.S. silencers deliver a smoother, quieter shooting experience, which will lead to greater success in the field.

Also new on the Micro Suppressor is the comfortable and lightweight Bullpup Ready Rest Stock, which reduces the crossbow length by 2.5 inches compared to similar models. The stock comes complete with rubber grip inserts for ultimate control and feel.

Additional features include the Gen II CRT Limb System, the most compact and durable limbs available today, the Quad-Loc riser, Recoil Energy Dissipation System (R.E.D.S.) and Air Brakes limb suppressors.

SPECIFICATIONS

Power Stroke:	10.2 Inches	Draw Weight:	280 lbs.
Overall Length:	31 Inches	Width Uncocked	25 Inches
Weight:	5.4 lbs.	MSRP:	\$1,299

If the compact and quiet Micro Suppressor isn't impressive enough on its own, Excalibur has included a new X-Hanger quiver, made from lightweight carbon materials for versatility and maneuverability. The quiver attaches to the Micro Suppressor via a Picatinny rail allowing for additional accessory attachments.

Also included with the Micro Suppressor are an ambidextrous cheekpiece, oversized finger guards and the Guardian Anti-Dry-Fire system for ultimate safety and protection. The crossbow comes equipped with a Tact-Zone Illuminated Scope, three Quill arrows, three 150-grain field points and a rope cocking aid.

The Micro Suppressor's compact size and silent shot make it the most deadly crossbow on the market today. Available in Realtree Xtra® finish, the Micro Suppressor has a suggested retail price of \$1,299.
