STRYKER TAKES PERFORMANCE TO A NEW LEVEL WITH KATANA 385

EUGENE, Ore. - If there ever was a crossbow for the hunter who wanted everything, this is it. The Stryker Katana 385 boasts the very best features Stryker has to offer – narrow profile, high-efficiency construction – along with the durability and safety technology perfected by the Excalibur brand.

“When it comes to the fit and feel and performance, there won't be a better crossbow on the market than the Stryker Katana 385,” said Ryan Hawkins, product marketing manager for Stryker. “We've reduced the overall length of the crossbow while maintaining the power stroke, creating a highly-efficient crossbow that fits in your hands and feels great to shoot.”
